

Africa CEO Forum comes to Rwanda

KIGALI, Rwanda - With Africa swinging into action to strengthen regional integration, the seventh edition of the Africa CEO Forum, the largest international gathering of CEOs and investors from the African private sector, will be held on 25-26 March 2019, in Kigali, Rwanda.

"This 7th edition will therefore be held at the heart of the continent, in Rwanda, a country both francophone and anglophone, whose economic dynamism and development model anchored in education, innovation and performance perfectly reflect the values of the [Africa CEO Forum](#)," explained Amir Ben Yahmed, founder and president of the Africa CEO Forum.

For the past six years, the Africa CEO Forum has been the largest international gathering of decision-makers and financiers from the African private sector. Its most recent edition, last March in Abidjan, brought together 1,500 CEOs, public-sector decision-makers and investors in Africa from all over the world for two days, to debate the transformation needed for African champions to rise to the challenge of international competition.

The Forum is organised by Jeune Afrique Media Group, publisher of *Jeune Afrique* and of *The Africa Report*, and by rainbow unlimited, a Swiss company specialised in events organization and economic promotion.
