

Keith Maseko named joint CEO of Benchmark, Sacai

Keith Maseko will serve as the joint CEO of Benchmark Assessment Agency and the South African Comprehensive Assessment Institute (Sacai). The appointment is in light of the joining of the two assessment bodies.

An industrial psychology and development studies graduate, Maseko has experience in the training and development sector. He joined Benchmark as its CEO in early 2015. Under his leadership, Benchmark not only received its provisional accreditation from Umulasi in 2016 but also added five additional subjects to the provisionally accredited qualification a year later.
