

thryve opens office in Canada

thryve, a provider of insurance, risk and governance technology solutions, has opened an office in Toronto, Canada. This branch is expected to look into tapping the fast-emerging and growing digital Canadian market.

"The technology sector in Canada is growing at an incredible rate," said Neer Rama, force solutions product manager at thryve.

"We believe that this is the right time to enter the market and offer our cutting edge risk and insurance solutions to a wider audience."

thryve already operates offices in Johannesburg, as well as in London. The expansion into Canada comes at a time when that country's technology ambitions are booming.
