

DStv adds Amazon Prime Video to its Explora Ultra

DStv has added Amazon Prime Video to its recently launched DStv Explora Ultra decoder. This will allow DStv customers with a Prime Video membership to access the streaming service, ranging from movies and TV series, including Amazon Originals, with a click of a button on the Explora Ultra.

The entertainment service joins a list of streaming services and apps available on the Explora Ultra, including Showmax, Box Office, Netflix and Joox.
