

## New look for educational channel

In collaboration with SABC Education and the Department of Education, televised learning resource Learning Channel has revamped its look and content to reflect South Africa's updated educational curriculum. Supported by a mix of delivery platforms, including web, newspapers, hi-tech audio-visual aids, workbooks and SMS, the new format includes a new 40-minutes youth-specific slot, LC4U, designed to provide FET learners with the skills and information they need as they prepare to venture out into the big wide world.
