

Travelcheck launches 'Experiences' booking feature

South African online travel booking website Travelcheck has launched a new booking feature called 'Experiences'. The new feature allows travellers to book local and overseas experiences with activities to fit a range of interests and budgets - from La Liga football matches in Spain and walking tours of Rome to kayaking and wine tram tours in Cape Town.

Experiences can be reserved as a separate service or added to Travelcheck flight, hotel and holiday package bookings. The tours and experiences, which include full-day activities or two-hour events, are priced in Rands and up to 15 people can be included in a single booking.
